Professional Summary

MCA graduate with strong skills in Python, C, PHP, JavaScript, and expertise in full-stack web development. Achieved 8.39/10 CGPA, led a team to build an AI-powered chatbot deployed on Vercel, and delivered 3+ successful client projects during academics, demonstrating technical excellence, problem-solving ability, and hands-on experience with AI, NLP, and web technologies.

Technical Skills

- Programming Languages: Python, C, PHP, JavaScript
- Frameworks & Libraries: React, Bootstrap, Tailwind CSS
- Tools & Platforms: Git, GitHub, MS Office (Word, Excel, PowerPoint, Outlook, MS Project), WordPress, Vercel

Projects

Drushti – Conversational Image Recognition Chatbot

- Developed a web-based AI chatbot integrating computer vision and NLP for interactive image-based queries.
- Deployed on Vercel, improving image recognition accuracy by 60-70% using custom algorithms.
- Enhanced user experience with a conversational interface for real-time, context-aware responses.

Disha – AI-Enhanced Career Guidance System

- Built an AI-driven career recommendation platform using Google Gemini AI and statistical analysis to provide personalized career paths.
- Supported 250+ users with tailored suggestions aligned with NEP 2020, incorporating user feedback to improve accuracy.

Personal Portfolio

- Designed and launched a responsive portfolio website using Vite.js, showcasing skills and projects.
- Achieved 400+ site visits in the first month; enhanced user engagement through an interactive UI.
